Independent Auditor's Report

To the Chief Executive Officer and
the School Reform Board
Detroit Public Schools

We have audited the financial statements of Detroit Public Schools for the year ended June 30, 2004 and have issued our report thereon dated November 4, 2004. Those financial statements are the responsibility of the management of Detroit Public Schools. Our responsibility was to express opinions on the financial statements that collectively comprise the School District's governmental activities, each major fund, and the aggregate remaining fund information of financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was made for the purpose of forming opinions on the financial statements that collectively comprise the financial statements of Detroit Public Schools. The accompanying schedule of expenditures of federal awards and reconciliation of financial statements federal revenue with schedule of expenditures of federal awards are presented for the purpose of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Report Letter on Internal Control Over Financial Reporting and on
Compliance and Other Matters - Basic Financial Statements

To the Chief Executive Officer and
the School Reform Board
Detroit Public Schools

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Detroit Public Schools as of and for the year ended June 30, 2004 and have issued our report thereon dated November 4, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Detroit Public Schools' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of tests disclosed one instance of noncompliance that is required to be reported under *Government Auditing Standards*, described in the schedule of findings and questioned costs as item 04-E. We also noted certain immaterial instances of noncompliance that we have reported to the management of Detroit Public Schools in a separate letter dated November 4, 2004.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Detroit Public Schools' internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Detroit Public Schools' ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 04-A, 04-B, 04-C, and 04-D.

To the Chief Executive Officer and
the School Reform Board
Detroit Public Schools

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider items 04-A and 04-B to be material weaknesses.

This report is intended solely for the information and use of the Chief Executive Officer, the School Reform Board, management, the cognizant agency, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report Letter on Compliance with Laws and Regulations and
Internal Control - Major Federal Awards

To the Chief Executive Officer and
the School Reform Board
Detroit Public Schools

Compliance

We have audited the compliance of Detroit Public Schools with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2004. The major federal programs of Detroit Public Schools are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Detroit Public Schools' management. Our responsibility is to express an opinion on Detroit Public Schools' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Detroit Public Schools' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Detroit Public Schools' compliance with those requirements.

As described in items 04-1, 04-2, 04-3, 04-4, and 04-6 in the accompanying schedule of findings and questioned costs, Detroit Public Schools did not comply with requirements regarding eligibility and reporting that are applicable to the Child Nutrition Cluster of programs. Also as described in items 04-22, 04-23, 04-24, 04-25, 04-26, 04-27, 04-28, 04-29, 04-30, 04-31, 04-32, and 04-33 in the accompanying schedule of findings and questioned costs, Detroit Public Schools did not comply with requirements regarding reporting, non-public consultation, cost principles, and types of services allowed that are applicable to the Title I program. Compliance with such requirements is necessary, in our opinion, for Detroit Public Schools to comply with requirements applicable to these programs.

To the Chief Executive Officer and
the School Reform Board
Detroit Public Schools

In our opinion, except for the noncompliance described in the preceding paragraph, Detroit Public Schools complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2004. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133, which are described in the accompanying schedule of findings and questioned costs as items 04-7, 04-8, 04-9, 04-10, 04-11, 04-13, 04-14, 04-15, 04-16, 04-17, 04-18, 04-19, 04-20, and 04-34.

Internal Control Over Compliance

The management of Detroit Public Schools is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Detroit Public Schools' internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Detroit Public Schools' ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 04-5, 04-7, 04-12, 04-19, and 04-21.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe none of the reportable conditions described above is a material weakness.

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2004

Note 1 - Significant Accounting Policies

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Detroit Public Schools and is presented on the same basis of accounting as the financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Note 2 - Noncash Assistance

The value of the noncash assistance received was determined in accordance with the provisions of OMB Circular A-133.

Note 3 - Grant Section Auditor's Report

Management has utilized Form R-7120 in preparing the schedule of expenditures of federal awards. Unreconciled differences, if any, have been disclosed to the auditor.

Note 4 - Adjustments and Transfers

During the year ended June 30, 2004, adjustments and transfers in the amount of \$1,146,969 were made to write off receivables not expected to be collected and to return grant payments received in advance that were not spent before the awards had expired.

Section II - Financial Statement Audit Findings

Reference Number	Findings
04-A	<p>Finding Type - Reportable condition and material weakness</p> <p>Condition/Cause/Effect - The School District's budget system did not operate in the manner for which it was designed during the year. As a result, this significant internal control over the School District's expenditures was not effective in ensuring that expenditures were within budget. Much of this problem was caused by the system conversion, which delayed the implementation of the budget process.</p> <p>Description - Accurate and timely implementation of the annual budget in the overall financial system is necessary to ensure adherence to the budget.</p>

Detroit Public Schools

Schedule of Findings and Questioned Costs (Continued) Year Ended June 30, 2004

Section II - Financial Statement Audit Findings (Continued)

Reference Number	Findings
04-B	<p>Finding Type - Reportable condition and material weakness</p> <p>Condition - During our testing, it came to our attention that the School District had a significant amount of checks recorded as outstanding checks that had actually either been reversed (canceled) or a stop payment had been ordered. This condition prevented the financial records from reflecting the correct cash balance and made the monthly reconciliation difficult.</p> <p>Description - Stop payment or otherwise canceled checks should be immediately removed from the outstanding list in order to accurately reflect the cash balance.</p>
04-C	<p>Finding Type - Reportable condition</p> <p>Condition - During the course of our audit, we noted that the School District does not maintain copies of the employee election to be paid either in 21 weeks or 26 weeks. This is a key election and necessary audit trail documentation.</p> <p>Description - The School District should maintain a proper audit trail by retaining the employee election to be paid in 21 weeks or 26 weeks.</p>
04-D	<p>Finding Type - Reportable condition</p> <p>Condition - During the course of our audit, we noted that all property tax revenue was recorded in the General Fund.</p> <p>Description - The School District's system does not currently identify the appropriate property tax revenue amounts to transfer to other funds on a timely basis.</p>

Schedule of Findings and Questioned Costs (Continued) Year Ended June 30, 2004

Section II - Financial Statement Audit Findings (Continued)

Reference Number	Findings
04-E	<p>Finding Type - Noncompliance material to financial statements</p> <p>Condition - Michigan law prohibits school districts from incurring General Fund expenditures in excess of General Fund revenues if such excess results in a General Fund deficit fund balance. Due to static revenue and declining enrollment, General Fund operating costs exceeded revenue and, at June 30, 2004, the School District reported a General Fund deficit fund balance of \$48.7 million.</p> <p>Description - Michigan state law requires the School District to establish a State-approved plan to eliminate this deficit within two years. We understand that the School District is currently developing this plan.</p>

Section III - Federal Program Audit Findings

Reference Number	Findings
04-1	<p>Program Name - Child Nutrition Cluster</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - The student rosters should be completely filled out and correctly reflect the approved status of the completed lunch application.</p> <p>Condition - Six out of 51 students' applications selected for testing had been properly approved as eligible for reduced price meals; however, the students' lunch rosters reflected their status as free.</p> <p>Questioned Costs - \$432</p> <p>Context - The review of applications noted that the applications were correctly marked as approved for reduced lunch; however, during the data entry into the student lunch database, the status of the six students was entered as free.</p> <p>Cause/Effect - The School District is receiving claim reimbursements for free lunches when they are eligible and approved for reduced price lunches per the application. There is a possibility that these students were subsequently approved for free lunches, but this was not documented on the application.</p> <p>Recommendation - Detroit Public Schools should institute a procedure to review information input into the student lunch database to ensure all meals claimed for reimbursement are at the proper eligibility status.</p>

Section III - Federal Program Audit Findings (Continued)

Reference Number	Findings
04-2	<p>Program Name - Child Nutrition Cluster</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - The School District uses the focused sampling method for verification of free and reduced applications. Focused sampling requires that at least 1.5 percent of applications are verified.</p> <p>Condition - The School District verified 522 out of 49,601 applications. This is 1.05 percent; therefore, the sample size was not met.</p> <p>Questioned Costs - None</p> <p>Context/Cause/Effect - The verification process is a control procedure put in place by state and federal guidelines to ensure compliance with the application verification process used by the School District. Failure to comply with the minimum size requirement could result in increased verification procedures or a reduction in federal grant award due to lack of compliance.</p> <p>Recommendation - The School District must ensure that the amount of applications verified meets the minimum required by the State of Michigan and federal guidelines.</p>

Section III - Federal Program Audit Findings (Continued)

Reference Number	Findings
04-3	<p>Program Name - Child Nutrition Cluster</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Other noncompliance</p> <p>Criteria - The School District's production records are required to document that all five components were offered and documented on a daily basis, along with milk usage.</p> <p>Condition - Three out of 25 production records tested revealed that the milk usage was not being recorded consistently.</p> <p>Questioned Costs - None</p> <p>Context/Cause/Effect - Compliance with federal requirements is an essential component of grant funding. Menu testing revealed that milk was available on all menus; however, it was not documented as being used on the production records in a consistent manner.</p> <p>Recommendation - The School District should instruct staff to properly record the milk usage at all school sites. The School District should also ensure that the usage is being recorded consistently, on a daily basis.</p>

04-4	<p>Program Name - Child Nutrition Cluster</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - Claims for reimbursement should be adequately supported by the counts taken at the point of service.</p> <p>Condition - Six out of 15 daily meal counts selected for testing could not be substantiated because all rosters were not provided.</p> <p>Questioned Costs - Unknown</p> <p>Context/Cause/Effect - The review of lunch rosters for daily meal counts noted that six of the 15 days selected could not be substantiated properly due to missing rosters.</p> <p>Recommendation - The School District should ensure that the schools are properly recording meals on a breakfast or lunch roster. The School District should also ensure that the records are maintained properly and kept organized.</p>

04-5	<p>Program Name - Child Nutrition Cluster</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Reportable condition</p> <p>Criteria - Daily meal counts on the individual lunch rosters should correspond to the "Monthly Accuclaim & Edit Checks for Meals Served" total by each day.</p> <p>Condition - Four out of the 12 daily counts recalculated from the rosters did not match the total on the "Monthly Accuclaim & Edit Checks for Meals Served" by day.</p> <p>Questioned Costs - None</p> <p>Context/Cause/Effect - Review of the daily lunch rosters noted that four of the 12 counts were different than what was reported on the monthly report. In total, the meals were underreported by 19. This could result in meal reimbursements being under-claimed by the School District.</p> <p>Recommendation - The School District should ensure that the rosters are properly entered into the system so that monthly totals claimed for reimbursement are correct.</p>

Reference Number	Findings
04-6	<p>Program Name - Child Nutrition Cluster</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - Daily meal counts are tabulated on the "Monthly Accuclaim & Edit Checks for Meals Served" report. The monthly total is then submitted to the State of Michigan for reimbursement on the free and reduced meal portion.</p> <p>Condition - Nine out of the 15 monthly reimbursement requests tested contained meal counts which were more or less than the amount verified on the MEIS Website. Total meals submitted for reimbursement over the counted meals was 4,892.</p> <p>Questioned Costs - \$9,686 (4,892 x \$1.98 per free meal reimbursement)</p> <p>Context/Cause/Effect - The MEIS Website reflects a different number of meals claimed for reimbursement than the School District's monthly totals. Claims submitted to the Michigan Department of Education are required to be supported by accurate daily meal and monthly meal count information.</p> <p>Recommendation - The School District needs to ensure that the daily meal counts are properly maintained. They also need to ensure that the monthly data submitted to the State accurately reflects the daily data.</p>

04-20	<p>Program Name - Head Start</p> <p>Pass-through Entity - The City of Detroit Department of Health and Human Services</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - An expenditure charged to a federal grant must be an allowable cost in accordance with the OMB Circular A-87, Attachment B and the federal grant requirements.</p> <p>Condition - During the year, the School District issued a check and recorded an expenditure for \$20,000 to fund an imprest petty cash account used by the Head Start program.</p> <p>Questioned Costs - \$20,000</p> <p>Context/Cause/Effect - The School District keeps \$20,000 in the checking account at the Head Start office for expenditures related to the Policy Committee and Executive Board meetings. Inquiry was made for documentation to substantiate the expenditures from the petty cash checking account. No documentation was received from the Head Start office to support these expenditures.</p> <p>Recommendation - The Head Start office should maintain proper documentation to substantiate the allowability of the costs charged to this portion of the program according to the federal and OMB Circular guidelines.</p>

The employee was terminated by the School District per review of personnel file.</p> <p>Recommendation - The School District should regularly review credentials of employees charged to grants to ensure that the personnel qualifications required under the grant are upheld and that the allowabilily of the cost criteria is met.</p>

04-23	<p>Program Name - Title I</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - Indirect costs allocated to the grant must be equal to or less than the rate approved by the State.</p> <p>Condition - Per review of the final expenditure report for the 2002/2003 school year, we noted that the School District allocated indirect costs to the grant using the 2001/2002 approved indirect cost rate rather than the 2002/2003 approved rate.</p> <p>Questioned Costs - \$181,227 (Difference between indirect cost rate on report of \$4,032,298 (4.45 percent) and the amount recalculated using the appropriate rate of 4.25 percent - \$3,851,071)</p> <p>Context - Use of the 2001/2002 indirect cost rate overstated the amount of indirect cost that could be allocated to the grant as the 2001/2002 approved rate was greater than the 2002/2003 approved rate.</p> <p>Cause/Effect - Allocation of indirect costs is an approved grant expenditure only when allocated based on the State-approved indirect cost rate. Indirect costs allocated using a rate greater than the approved rate are not allowed expenditures under the grant.</p> <p>Recommendation - The School District should charge indirect costs to the grant only when they are allocated based on the appropriate State-approved indirect cost rate or receive documentation from the State to substantiate a different rate being used.</p>

Lesson plans were not maintained for four employees who were charged to Title I less than 100 percent.</p> <p>Questioned Costs - \$1,457.72</p> <p>Context - If an employee is charged 100 percent to Title I, the School District is required to maintain bi-annual certifications supporting the charge of the employees' salary to the grant. Expenditures for employees who are partially charged to the grant should be supported by lesson plans and/or other contemporaneous documentation which detail how charges for their time are allowable under the grant. The School District did not provide documentation for four employees who are charged to the grant less than 100 percent.</p> <p>Cause/Effect - Costs not properly supported with adequate documentation are questionable as proper expenditures under the grant.</p> <p>Recommendation - The School District should maintain adequate support for all costs charged to the grant to ensure compliance with the provisions of the award.</p>

Late notification of AYP status by the State of Michigan further limited the School District's ability to budget Title I accountability.</p> <p>Recommendation - The School District should review individual school budgets to ensure that funds are being properly allocated/budgeted for professional development when required.</p>

Reference Number	Findings
04-27	<p>Program Name - Title I</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - The Title I grant program requires that the School District provide meaningful consultation and equitable services to eligible non-public schools within the School District.</p> <p>Condition - As a result of a federal audit in 2003, the School District was found to be noncompliant with the consultation requirement for the 2002/2003 school year. The School District was required to immediately implement a corrective action to remedy the situation. A written formal complaint was received from the Archdiocese of Detroit indicating that the School District had not complied with the corrective action plan. Also, in the current year, the non-public allocations were based on the original budget and not revised after the School District received an increased award amount.</p> <p>Questioned Costs - \$293,135 (\$278,414 to be restored from the 2003 audit plus the \$14,721 of additional allocation to amended award amount for the current year)</p> <p>Context - The School District is required to provide a signed affirmation that this consultation occurred with non-public school officials regarding their allocation of Title I funds and establish written policies ensuring it provided an equitable share of set-asides, to restore \$278,414 to its allocation for unallowable costs.</p> <p>Cause/Effect - Proper allocation of Title I funds ensures that each student covered under the grant, either public or non-public, receives their pro-rata share of Title I benefits.</p> <p>Recommendation - The School District should develop a standard process for communication with non-public schools, their eligibility to participate in federal grant programs, and what the allocation process is, and receive signed affirmation from the non-public schools that this has occurred. They should also restore the \$293,135 to the non-public allocation of Title I funds.</p>

04-28	<p>Program Name - Title I</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - The School District is required to determine the poverty level of schools to determine their eligibility for and allocation of Title I funds.</p> <p>Condition - The calculation to determine the poverty measure is based on a weighted average of membership counts and free and reduced lunch counts. Review of this calculation of the measure revealed that the School District used data from different dates for each component of this formula. The 2002 fall count for membership was used and the January 2003 free and reduced lunch counts were used.</p> <p>Questioned Costs - Unknown</p> <p>Context/Cause/Effect - Use of data from different count dates could distort the resulting poverty measure, creating the possibility that schools may receive an inequitable allocation of Title I funds.</p> <p>Recommendation - The School District should use data from the same count dates to determine this poverty measure to ensure that each school receives their proper Title I allocation.</p>

Review of the budget revealed only \$607,082 was budgeted for parental involvement. Inquiry of the Office of Compliance revealed that the balance of the 1 percent was to be available through the parent/community liaison office. No documentation that this requirement has been met was obtained from this department.</p> <p>Recommendation - The School District should review the Title I budget allocations to ensure that funds are properly budgeted and documented in compliance with the grant award.</p>

Reference Number	Findings
04-34	<p>Program Name - Title I Accountability</p> <p>Pass-through Entity - Michigan Department of Education</p> <p>Finding Type - Material noncompliance</p> <p>Criteria - The purpose of this grant is to improve buildings not meeting their AYP as defined by the NCLB legislation. The award letter and approved budgets for use of these funds specify certain buildings within the School District where funds are to be used. Monies are available to the buildings for allowable expenditures or as participants in programs provided by an outside party for these purposes.</p> <p>Condition - During testing, it was noted that three schools were identified on the original award letter as being eligible to participate in the use of these funds. These schools could not be agreed to either the contract with the service provider or the school allocation worksheet provided by the School District. Buildings identified were Foch MS, Richard Elementary, and Burbank MS. One school building, Helimann Jr., was also noted as receiving services from the service provider, but was not included in the award letter.</p> <p>Questioned Costs - Unknown</p> <p>Context/Cause/Effect - Per inquiry with School District officials, the buildings identified in the original award letter were subsequently revised. There were no expenditures at these buildings identified above. No documentation of this change being submitted to the grantor could be provided by the School District.</p> <p>Recommendations - The School District should revise any buildings identified on the original grant award, submit to the grantor, and retain a copy in its records.</p>
