Honorable Board of Education Members

Lamont D. Satchel, Esq.
Interim General Superintendent
Detroit Public Schools
Detroit, Michigan

We are hereby submitting the 2008 Adopted Budget, for the fiscal year ending June 30, 2008. This plan represents our assessment and recommendations concerning the allocation of available resources in compliance with the Michigan Uniform Budgeting and Accounting Act and the Deficit Elimination Plan (DEP). All applicable State laws, regulations, and statutory requirements have been met. This document, along with the budget presentation document, and Budget Book will be posted on the Detroit Public Schools' web site for public access and viewing. A balanced budget is presented for each of the District's funds.

Current Financial Trends:

- √ Student enrollment continues to decline for the District. Since the fall of 2000, the District has lost 61,937 funded pupils. For fiscal year ending 2008, the estimated loss represents approximately 5,000 funded pupils alone.

- √ Although the State has projected to increase the per pupil funding levels by an estimated \$100 - \$178, this increase is not reflected in our preliminary revenue projections as no definite decision has been finalized by the State. If the increase occurs, it will be offset by the increase in benefits and existing contractual obligations. The recent State funding trends are critical factors facing this District. However, the District continues to provide quality services in areas that are not always provided with the full funding levels necessary for the programs. Some examples include: Special Education, English as a Second Language (ESL), and No Child Left Behind (NCLB).

- √ The eroding tax base of the City of Detroit; along with the differences in the 1996 foundation allowance has continued to contribute to the greater disparity between urban children and suburban children. For example, the 1996 foundation allowance for the Detroit City School District's foundation allowance was \$7,259, while the Birmingham City School District's foundation allowance was \$11,930. The State has attempted to bring the lower districts closer to the funding of the higher districts, by increasing the per pupil funding, however, the differential has not decreased substantially. The 2007 Foundation allowance for Detroit is \$7,469 while Birmingham's is \$12,140. This huge per student disparity makes it much harder for urban districts to provide an adequate level of education.

- √ The District's ongoing financing concerns, along with the trends in student data, have forced the District to balance this Preliminary budget based on significant reductions and re-prioritizing existing programs and services.

- √ The economic impact of Charter Schools and the population trends in the City of Detroit will continue to deteriorate the District's financial ability to adequately support all programming needs. In fiscal year 2006-2007 Wayne County RESA reported approximately 33,759 City of Detroit students attending charter schools.

- √ In 2007-2008 the District is proposing to maintain the current level of Title I allocations to schools.

- √ In an attempt to provide alternatives for those students requiring a different learning path, the District implemented a "Last Chance Program" during Fiscal Year 2006. During Fiscal Year 2006, three (3) community based organizations were contracted in July 2005 to provide an alternative high school education to students that had dropped out of the District. These organizations generated 696 full-time equivalents (FTEs). For Fiscal Year 2007, nine (9) community based organizations provided services generating approximately 1,400 FTEs. The District retains 20% of the state foundation allowance for each FTE generated. For Fiscal Year 2008 the Last Chance Program has been eliminated.

We would like to thank you and the Board of Education for your commitment and support of the students, staff, community partners and the Division of Finance, Office of Budget in the development of this document.

Respectfully submitted,

April L. Royster, CPA

FINANCIAL POLICIES & PROCEDURES 2008

FINANCIAL POLICIES AND PROCEDURES

The following financial policies are consistent with Federal, State and local regulations:

Budget Standards:

Each annual budget must be prepared in accordance with the Michigan Uniform Budgeting and Accounting Act. Each budget must be balanced such that in each fund total revenues are greater than or equal to appropriations. These policies reflect the District's commitment to preparing its budget on a basis consistent with the highest financial standards and to balancing its budget every year.

Personnel Policies:

All appointments of management level personnel shall be subject to approval by the General Superintendent and Board of Education. All salary increases must be approved by the Division Head, the Executive Director of Budget, Chief Financial Officer, the Chief Human Resources Officer, General Superintendent and Board of Education.

ACCOUNTING POLICY

The following is a summary of significant accounting policies followed in the preparation of the combined financial statements of the District.

Fund Accounting:

The financial activities of the District are organized on the basis of funds, each of which is considered a separate accounting entity.

Function Reporting:

Revenues and expenditures are reported by fund and functional categories. Functional categories describe the activity for which a service or material is acquired. The basic functional categories are instruction, pupil support, instructional staff support, general administration, school administration, business services, operations and maintenance, transportation, central services, and site acquisitions services.

Basis of Accounting:

The accounts are maintained using the modified accrual basis. Under the modified accrual basis of accounting, revenue is recorded as soon as it is both measurable and available; therefore, represent resources which may be appropriated. Expenditures are generally recognized when the related liability is incurred.

Property Taxes:

Property taxes are recorded as revenue when collected or if collected within 60 days after the fiscal year-end. Taxes levied and not collected within 60 days after the fiscal year-end are recorded as taxes receivable.

Property taxes are assessed as of December 31. Approximately one-half of such taxes are levied and become a lien on July 1, and the balance is levied and becomes a lien on December 1. These taxes are due on August 15 and January 15, respectively. In its role as tax collection agent for the District, the City of Detroit is responsible for the collection of delinquent taxes, along with the County.

As a result of the passage of a constitutional amendment by the voters of the State of Michigan on March 15, 1994, the District's financing structure was reorganized effective for the fiscal year ended June 30, 1995. The reorganization of school financing shifted a portion of the District's revenue sources from locally levied and collected property taxes to the State of Michigan, received in the form of a foundation allowance. The State foundation allowance is the primary basis of revenue.

Pension Plan:

Substantially all District employees participate in the Michigan Public School Employees' Retirement System (MPERS), known as Office of Retirement Services (ORS), under which employees are entitled to certain defined benefits established by State statute. Currently, school districts are required by State statute to contribute 16.72% of eligible wages to the plan. The 2008 budget was developed based on 16.72% as the required contribution.

INTERNAL CONTROL/FUNDS TRANSFER POLICY

The District's management officials are responsible for implementing and enforcing a system of internal controls to protect the assets of the District from loss, theft, or misuse. Officials also ensure that reliable accounting data are available for the timely preparation of all financial statements.

Budget transfers between programs are permitted. This allows flexibility and provides budgetary control for managing supervisors. The Transfer of Funds Policy is intended to streamline management processes while emphasizing the importance of budget management.

Funds may be transferred between funds, between departments or between objects. Transfers require specific approval from the Chief Financial Officer and/or the Department Head. Depending on the type of transfer, approval may be required from the Department Head, Executive Director of Budget, Chief Financial Officer, General Superintendent or any combination thereof. Central administrative offices and schools are allowed to transfer funds between objects, with approval of the Executive Director of Budget.

**GENERAL APPROPRIATIONS RESOLUTION
AND 2007-08 BUDGET**

WHEREAS, the 2007-2008 budget recommendations were presented to the General Superintendent, and the Committee on Finance, Budget and Title I.

WHEREAS, pursuant to the provisions of Act No. 43, of the Public Acts of Michigan of 1963, Second Extra Session, the Board of Education is required to hold a public hearing on the proposed budget prior to its adoption for the fiscal year ending June 30, 2008, and

WHEREAS, due notice of such public hearing was given by publication in newspapers of general circulation at least five days prior to such hearing, which notice, in accordance with said act, stated that a copy of such budget was available for public inspection on at the District's Welcome Center and on its website; and

WHEREAS, in accordance with the act, such public hearing was held in the auditorium of Spain Elementary/Middle School, 3700 Beaubien in the City of Detroit on the 25th day of June 2007; and

WHEREAS, the Board of Education hereby adopts this general appropriations resolution for the 2007-08 budget of the Detroit School District for all programs and funds.

NOW, THEREFORE, BE IT RESOLVED, that this resolution shall constitute the general appropriations of the Detroit School District for the 2007-08 fiscal year; a resolution to make appropriations; to provide for the expenditure of the appropriations; and to provide for the disposition of all income received by the Detroit School District.

BE IT FURTHER RESOLVED, that the total income and total expenditure appropriations for the General Fund, Building and Site Fund, Operating Debt Retirement Fund, Bond Debt Retirement Fund, and School Service Fund of the Detroit Board of Education for 2007-08 are as specified in this resolution.

BE IT FURTHER RESOLVED, that budgeted appropriations available from a prior year and carried forward for the fiscal year ending June 30, 2007 are not included in the amounts appropriated for the fiscal 2007-08 year.

BE IT FURTHER RESOLVED, that the appropriations for the General Fund, Building and Site Fund, Operating Debt Retirement Fund, Bond Debt Retirement Fund, and School Service Fund as submitted to this Board of Education, be and the same are approved and adopted with certain provisions hereinafter mentioned.

BE IT FURTHER RESOLVED, that revisions in total income and total expenditure appropriations for a fund shall be approved by the Board of Education based upon recommendations from the Interim General Superintendent.

BE IT FURTHER RESOLVED, that no Board of Education member or employee of the school district shall expend any funds or obligate the expenditure of any funds except pursuant to appropriations made by the Board and in keeping with the budgetary policies of this Board.

BE IT FURTHER RESOLVED, that no appropriation for any purpose or object shall be deemed a mandate to incur an expense or make any expenditure. Appropriations shall be deemed maximum authorizations to incur expenditures and the General Superintendent shall exercise supervision and control to ensure that program or work objectives are related within these maximums.

BE IT FURTHER RESOLVED, that the expenditures of funds appropriated herein for school district purposes shall be under the general supervision of the General Superintendent and the control of the Chief Financial Officer, subject to budgetary policies approved by this Board of Education.

BE IT FURTHER RESOLVED, that before any order or contract for improvement, supplies or services is issued by any officer or any employee of the Board of Education, it shall be determined that an appropriation made therefor, has not been exhausted. No such order or contract for improvements, supplies or services shall be issued unless there is an available appropriation balance therefor. Spending against such order or contract shall be limited to the appropriation balance from which it is payable.

BE IT FURTHER RESOLVED, that line-item account transfers within the same fund of an unencumbered balance or any part thereof that is not required to meet the program or work objectives for the balance of the year may be accomplished subject to procedures established for approval of such transfers. Transfers from one division or area to another may be authorized by the Chief Financial Officer or his/her designee. Transfers within or between operating units may be authorized by the division executive in the case of a division budget subject to review by the Chief Financial Officer of his/her designee.

BE IT FURTHER RESOLVED, that the total number of positions established for each division may not be increased except as authorized by the General Superintendent under procedures that may be established to approve additional positions requested. Appropriate budget adjustments shall be made to fund the establishment of additional positions that are authorized. Salary amounts appropriated herein for unspecified positions may be used during the course of the year to establish required positions subject to the approval of the General Superintendent.

BE IT FURTHER RESOLVED, that nothing in the foregoing shall be construed as authorization for the expenditure of funds or the incurrence of obligations in excess of the total sums appropriated herein for each fund.

BE IT FINALLY RESOLVED, that during the period between Board meetings, the General Superintendent may authorize issuance of an order or contract on an emergency basis and expend funds therefor without prior specific authorization by the Board, provided that at the next regular meeting of the Board, the General Superintendent shall report such action or actions to the Board for its confirmation with the provision that such commitments shall be limited to the balance available in the account(s) to be charged.

This appropriations resolution is to take effect on July 1, 2007.

BUDGET DEVELOPMENT PROCESS 2008

IMPORTANCE OF THE BUDGET

Budgeting is a planning process and no plan can anticipate unknown factors. This budget includes provisions for all factors that could be reasonably anticipated, and modifications will be made as needs change during the year. The budget authorizes the original entries in the accounting system and establishes a legal framework for payroll, personnel and purchasing operations. In short, budgeting is an indispensable part of sound and proper administrative planning and accountability.

It is the budget which provides schools and other operating units with the approved official document indicating the authorized organizational structure, staffing patterns and material resources that may be used in delivering services to students within legal and financial limitations. It is important to the operational activities that such a document be available to all throughout the District. It provides a common reference point essential to proper and expeditious processing and recording of the day-to-day transactions necessary for the placement of personnel and the delivery of materials as well as the documentation required in audit findings and evaluation of District activities. It is important to the schools and operating units in so far as it serves to indicate in advance what shall be the approved uses of resources.

The budget approach and its implementation in any given year must recognize ongoing service arrangements, existing organizational structure and operating methods, any one of which may not be entirely satisfactory for most desirable results. Improvements must come over a long-range period. However, the budget development procedures provided are designed to obtain maximum participation in seeking such improvements by personnel of the District at all levels.

In preparation and presentation of the budget, each administrator of the District, from the School Principal, General Superintendent to the Board of Education, is given an opportunity to present his or her management proposals and ideas to higher levels of decision-making within the organization. The process of preparing and reviewing the budget presents an opportunity to justify operational programs, to propose changes in service, and to recommend revisions in organizational structure and work methods.

While such changes are continually considered as part of day-to-day administration, the budget places a definite emphasis on such concerns. A complete and well-documented budget inspires public confidence and provides the administrator with one of the most important devices for directing the activities for which he or she is responsible.

Budget Administration

1. The General Superintendent is authorized to:
 - a. reallocate any excess revenues received during the year. Such reallocations shall be for one-time non-recurring non-salary purposes only.
 - b. reallocate and expend savings that may occur during the year in centrally budgeted accounts. Such reallocations and expenditures shall be for one-time non-recurring salary and non-salary projects and activities.
2. The General Superintendent and the Board of Education must approve all allocations from the Fund Balance. The Fund Balance is used for the following purposes:
 - a. Enrollment shifts that could occur after the Fourth Wednesday count that establish the need for additional instructional service and supplies.
 - b. Initiatives that will occur during the school year, but an exact amount or the allocation of an amount is not known prior to the adoption of the budget.
 - c. Contingency for unforeseen events that may occur throughout the school year.
 - d. The undesignated fund balance is available for appropriation at the discretion of the General Superintendent with Board approval.
3. The General Superintendent shall approve all changes in student enrollment numbers.
4. Changes and amendments to the adopted budget (total revenues and total expenditures for all programs and funds) will be made based on the following budget amendment process:
 - a. The Budget Office receives budget revisions and recommendations.

- b. Suggested budget revisions will be reviewed and recommended adjustments will be forwarded to the Cabinet representatives for their review and input.
- c. Based on Cabinet's input, the Budget Office will prepare a revised budget and submit it to the General Superintendent and the Board of Education for approval.
- d. The Budget Office will implement the revised budget upon the General Superintendent and Board of Education approval.
- e. All budget changes and amendments are reported to the Michigan Department of Education (MDE) through the submission of monthly DEP (DS 4848) reports.

BUDGET DEVELOPMENT

Budget Development involves several steps. One critical step is to estimate revenue for the next fiscal year. Revenue estimates are primarily dependent on what the State foundation allowance (per pupil allowance) will be. The per pupil allowance is approved by the State legislature on an annual basis. The per pupil allowance is applied to enrollment estimates for the fiscal year based on projections received from the Office of Pupil Population Management. Enrollment projections are primarily based on historical trends as well as population estimates for the City of Detroit.

The District must also estimate federal revenue from grant programs as well as local revenue from property taxes.

In preparation of the 2007-2008 budget, central office division/department provide an initial budget estimate for staffing and discretionary appropriations. The Office of Budget met with every division/department to review initial expenditure estimates. All school staffing is formula driven per their Bargaining Unit contract.

The District is required to have appropriations equal revenue for each fiscal year and maintain a positive fund balance.

Once a proposed budget has been developed, it is presented to the General Superintendent and Cabinet for review and approval. Once approved by the General Superintendent, the budget is forwarded to the Board of Education, Committee on Finance for review. Before the budget is approved by the Board of Education, a public budget hearing meeting is held to receive community input.

The District is mandated to have an adopted budget approved by the Board of Education by July 1 of each year.

BUDGET PROCESS

September	October	November	December	January	February	March	April	May	June	July	August
-----------	---------	----------	----------	---------	----------	-------	-------	-----	------	------	--------

FY 08 NOTES AND ASSUMPTIONS:

1. The continuation of non-union management concessions amounting to approximately \$4.5 million.
2. Labor contract negotiations will provide concessions amounting to approximately \$30.1 million.
3. DFT will receive 3 days (concession given in 2006) back in 2008, amounting to \$9.9 million.
4. All eligible employees will receive a step and lane increase amounting to \$18.6 million.
5. Per pupil allowance will remain \$7,469.
6. School Staffing will be consistent with Bargaining Units Allocation Formulas. Projected reductions due to declining student enrollment are approximately 611 positions. The 2007-2008 Budget is balanced with the assumption that these positions will be removed from the PeopleSoft system.
7. Class size requirements are maintained.
8. No adverse Legislative changes.
9. The retirement percentage for the 2007-2008 fiscal year is approximately 16.72%, representing a decrease of 1.02%.
10. The preliminary average fringe benefit rate for positions is estimated at 43%, inclusive of the 16.72% above.
11. Central Office was reduced by 24 positions, amounting to \$2,052,300.
12. All central office/departments discretionary allocations were reduced by 50% excluding purchased services which were reduced by 10%.
13. A total of \$2,388,996 in revenue has been projected from the sales and leases of properties owned by the District:
 - Lease - \$999,000
 - Sales - \$1,389,996

FY 08 NOTES AND ASSUMPTIONS:

(continued)

14. Decrease in utility cost due to the closure of 34 schools, an approximate savings of \$2 million.
15. Enrollment projections are based on an anticipated loss of 5,000 students resulting in a reduction in revenue of \$37 million.
16. Sec. 29, the declining enrollment grant, will yield \$8.1 million.
17. Sec. 31a is expected to decrease per pupil due to declining enrollment. The net effect may be a 6-8% decline in 31a funding.
18. Sec. 32d MSRP will remain at \$3,300 per student.
19. Mini Grants (Sec. 34A for K-3 math and reading also Sec. 35 middle schools math and science enhancement) will continue.
20. Sec. 51a and Sec. 51c (special education) will be maintained at the current level.
21. Sec. 99c for middle school math programs will continue at \$54 per pupil resulting in \$1,036,314 in revenue.
22. Sec. 107 provides more funds for Adult Education with little effect to the District.
23. The district will be closing 34 buildings for 2008 (projected savings \$10.8 million) and between 3 and 10 for each of the next three fiscal years. Any savings in FY 2008 will be offset by expenses incurred due to the closing.
24. Overtime for the District will be restricted to the budgeted amount.
25. Building and Program Closures:

Note(s)

Title I is the largest federal aid program for elementary and secondary schools. Title I provides money to school districts around the country based on the number of low-income families in the district. Each school district uses Title I funds to ensure that children in high poverty schools receive supplemental academic services and have the same opportunities as other children to meet the State's rigorous academic standards.

Section 31A is allocated to local school districts with a current year combined state and local revenue per pupil membership of less than or equal to \$6,500, as adjusted by index and public school academies. Section 31A funds may be used for instructional programs and direct non-instructional services, such as medical or counseling services; before or after school, add extra days to school year, use tutorial method with paraprofessionals under supervision of a certified teacher.

ADULT EDUCATION (FUND 13)

The Adult Education Fund is used to account for funds received from the state and local sources to provide for Adult Education.

SPECIAL EDUCATION (FUND 22)

The Special Education Fund is used to account for, monitor, and maintain funds related to all special education programs and facilities. The main sources of revenue for this fund include Federal, State, County, Local agencies, and a subsidy from the General Fund.

In addition to the programs available at various schools, Detroit Public Schools currently has 9 schools in the District that are devoted solely to the needs of special education students.

There are many programs available to serve the needs of Special Ed. students. These programs are budgeted consistent with all Federal, State and County Mandates and approvals.

Notes: The subsidy from General Fund/ General purpose (fund 11) varies from year to year for multiple reasons. After all revenues for special education are reconciled for the current year, they are deducted from the total compliant special education budget. The difference is the subsidy from the General Fund/General purpose (fund 11). Many factors such as changes in population affect revenue. Changes in staffing, benefits, and mandated requirements affect expenditures.

ATHLETICS (FUND 21)

The Athletics Fund accounts for the athletic operations of the District's middle and high schools. This Fund also supports its numerous athletic programs for boys and girls during the fall, winter and spring seasons on both the junior varsity and varsity levels. Allocations are distributed to the schools bi-annually to be used to support the schools with their purchases of equipment, uniforms and operating costs where the school incurs expenses for referees, officials and emergency services.

In addition, Fund 21 provides support for the entire District for:

- Salaries for all coaches
- Referees, officials
- Transportation to all sports events
- Reimbursement for student expenses
- Printing of athletic publications and tickets

Revenues collected from the games are deposited into the schools' various athletic accounts. The money is used to defray the costs to host the games at the various school sites.

FOOD SERVICE (FUND 25)

The Food Service Fund is an enterprise fund (operated in a manner similar to private business) in which the costs of providing goods and services are to be recovered primarily through user charges. This fund is used to account for providing goods, services and food to students. The main purpose of this Fund is to keep apart, the appropriation, revenue, and expenditures related to food service. The Food Service Fund generates revenue from several sources. Although the primary source of revenue is a federal subsidy, revenue is also generated through ala carte sales and catering.

GLOSSARY 2007

GLOSSARY

Accountability

The capability and the responsibility to account for the expenditure of money and the commitment of other resources in terms of the results achieved. This involves both the stewardship of money and other resources and the evaluation of achievement in relation to specified goals.

Accounts Payable

Liabilities on open accounts owing to persons, firms, or corporations for goods and services received by a governmental unit (but not including amounts due to other funds of the same governmental unit or to other governmental units).

Accrue

To record revenues when earned or when levies are made, and to record expenditures as soon as they result in liabilities, regardless of when the revenue is actually received or the payment is actually made. Sometimes the term is used in a restricted sense to denote the recording of revenues earned but not yet due, such as accrued interest on investments and the recording of expenditures which result in liabilities that are payable in another accounting period, such as accrued interest on bonds.

Appropriation

An authorization granted by a legislative body to incur obligations and to expend public funds for a stated purpose. The expenditure of an appropriation is usually limited in amount and time.

Appropriations Account

The account records authorization granted by the legislative body to make expenditures and to incur a balance sheet prepared during the fiscal period. At the end of the fiscal period, the *Appropriations* account is closed out and does not appear in the balance sheet prepared at the close of the fiscal period.

Assessed Valuation

A valuation set upon real estate or other property by a government as a basis for levying taxes.

Auditor's Opinion

A statement signed by an auditor in which he or she states that he or she has examined the financial statements in accordance with generally accepted auditing standards (with exceptions, if any) and in which he or she expresses an opinion on the financial position and results of operations of some or all of the constituent funds and balanced account groups of the government as appropriate.

Balanced Budget

A budget in which estimated revenues are equal to or greater than estimated expenditures.

Budget

A plan of financial operations embodying an estimate of Preliminary expenditures for a given period and purpose and the Preliminary means of financing that plan.

Building and Site Funds

Record transactions to account for receipt and disbursement of monies used for the acquisition of capital assets, including equipment. The principle sources of revenue are from the sale of bonds and earned interest.

Capital Outlay

Amounts paid for the acquisition of fixed assets or additions to fixed assets which are presumed to have benefits for more than one year. Amounts expended for land or existing buildings, improvements or grounds, construction of buildings, additions to buildings, remodeling of buildings, or initial, additional, and replacement of equipment.

Compensation for Loss of Assets

Compensation or insurance recoveries for loss of school property. Gross expenditures from the proceeds should be charged to the proper expenditures account. Separate accounts may be maintained for buildings, contents, and other.

GLOSSARY

Current Expense

Federal definition: Any expenditure except for capital outlay, debt service, and transfers. If any accounts are kept on accrual basis, current expense includes total charges incurred, whether paid or unpaid. If accounts are kept on the cash basis, it includes only actual disbursement.

Debt Retirement Funds

The receipt of funds for the payment of interest and principle and other expenses associated with long term debt are recorded in the Debt Service Fund. The primary source of revenue are debt retirement tax levies and earned interest.

Deficit

An excess of expenditures over revenue.

Deficit Elimination Plan (DEP)

A Deficit Elimination Plan (DEP) is developed to eliminate a deficit. (The DEP can be reviewed on the District's website, www.detroitk12.org at DPS Quick Links, Deficit Elimination Plan).

Department ID

The group and type of educational activities for organizational purposes. A code identifying the units of which have discriminating characteristics, include individual schools, in most cases, and can be used to designate school cost centers. Budgets and expenditures may be made for each school or operational unit.

Discretionary

Funds appropriated and expended to run most schools or departments day to day activities. Common general descriptions for these expenditure areas are supplies, services, and equipment. This does not include salaries and benefits.

Within the General Fund these funds are under the direct control of the school or department. The school is responsible for ensuring that they never over expend their Discretionary Budgets.

District

Any public school district organized under the laws of Michigan, except a junior college district.

Expenditures

Decreases in net financial resources. Expenditures include current operating expenses which require the current or future use of net current assets, debt service, and capital outlay.

Expenses

Decreases in net total assets. Expenses represent the total cost of operations during a period regardless of the timing of related expenditures.

Financial Information Data (FID)

Guidelines designed by the State of Michigan that school districts are required to use when reporting their financial information to the State. Function Codes Descriptions follows.

Explanation of Functional Categories

1XX Instruction - Instruction includes the activities dealing directly with the teaching of pupils or the interaction between teacher and pupils. Teaching may be provided for pupils in a school classroom, in another location such as in a home or hospital, and other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium such as television, radio, telephone, and correspondence. Included here are the activities of classroom aides, teacher assistants, supplies and machines that directly aid in the instructional process. Include the work of group and class sponsors and chaperons at student activities. Include activities associated with instructional field trips.

2XX Supporting Services - Supporting Services are those services which provide administrative, technical (such as guidance and health), and logistical support to facilitate and enhance instruction and to a lesser degree, community services. Supporting Services exist as adjuncts for the fulfillment of the objectives of instruction.

GLOSSARY

21X Support Services-Pupil - Consist of those activities that are designed to assess and improve the well being of pupils and to supplement the teaching process.

22X Support Services-Instructional Staff - Consist of activities associated with assisting the instructional staff with the content and process of providing learning experiences for pupils.

23X Support Services-General Administration - Consist of those activities concerned with establishing policy, operating schools and the school system, and providing the essential facilities and services for the staff and pupils. Also included are community relations (district wide activities and programs designed to improve school/community relations.)

24X Support Service School Administration – Consists of those activities concerned with overall administrative responsibility for a single school.

25X Support Services Business – Activities concerned with purchasing, paying, transporting, exchanging and maintaining goods and services for the school district. (Fiscal Services/Internal Services).

26X Operations and Maintenance -- Operating Buildings Services – Activities concerned with keeping the physical plant open, clean, and ready for daily used. They include operating the heating, lighting, and ventilation systems, and repairing facilities/equipment. Also included are operating building leases, property and liability insurance, janitorial and ground maintenance costs. May be used in a Capital Projects fund only to extent allowed by law.

Security Services – Activities concerned with maintaining order and safety in school buildings, on the grounds and in the vicinity of schools at all times. Included are police activities for school functions, traffic control on grounds and in the vicinity of schools, building alarm systems, and security guards.

27X Pupil Transportation Services – Activities concerned with the conveyance of pupils to and from school, as provided by state law. It includes trips between home and school or trips to school activities. All other direct costs related to pupil transportation should be included under this function, i.e., physical exams, uniforms, school bus driver licenses, awards, bus monitors, etc. May be used in Capital Projects Funds only to extent allowed by law.

28X Support Services-Central - Activities other than general administration that support each of the other instructional and supporting service programs. (Human Resources/ Planning Research and Development/Communications/IT/Pupil Accounting).

29X Support Service-Other - Activities of any supporting service or classification of services, general in nature, which cannot be classified in the preceding service areas.

3XX Community Services - Community Services consist of those activities that are not directly related to providing education for pupils in a school system. These include services provided by the school system for the community as a whole or some segment of the community, such as community recreation programs, civic activities, public libraries, programs of custody and care of children, and community welfare activities.

45X Facilities Acquisition - Site Acquisition Services - Activities concerned with initially acquiring and improving sites.

5XX-6XX Other Financing Uses - A number of outlays of government funds are not properly classified as expenditures, but still require budgetary or accounting control. These include debt service payments and fund modifications.

NOTE: Information listed above was taken from the State of Michigan Financial Information Data (FID) Manual. Additional information on this topic can be found at <http://www.michigan.gov/documents/appendix>

GLOSSARY

Fiscal Year

July 1 through June 30 constitutes the mandatory fiscal year for public school districts.

Fixed Assets

Land, buildings, machinery, furniture, and other equipment which the school district intends to hold or continue in an asset.

Food Service Fund

A type of enterprise fund used to record financial transactions related to food service operations.

Fringe Benefits

Funds appropriated and expended to pay the cost of providing employee health, life, dental, and vision coverage, FICA and Medicare, and the employer portion of the Michigan Public School Employee Retirement System. Commonly referred to as employer paid benefits or fringe benefits.

Note: Controlled and administered centrally - Schools or departments are not responsible for over-expenditures, nor are they allowed to utilize under expenditures in this category within the General Fund. Budgetary control is maintained by controlling the number of staffing units a school or department is authorized to have and then ensuring that they remain within authorization.

Function

The basic account identifier for expenditures. It describes the activity for which a service or material is acquired.

Fund

A fiscal and accounting entity with a self balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and charges therein, which are segregated for the purpose of carrying on specific duties.

Fund Accounting

The accounts of the District are organized on the basis of funds and account groups in order to report on its financial position and results of its operations.

Fund Balance

The excess of the assets of a fund over its liabilities and reserves except in the case of funds subject to budgetary accounting where, prior to the end of a fiscal period, it represents the excess of the fund's assets and estimated revenues for the period over its liabilities, reserves, and appropriations for the period.

GASB

The Government Accounting Standards Board was established as an arm to the Financial Accounting Foundation in April 1984 to promulgate standards of financial accounting and reporting with respect to activities and transactions of state and local government entities. The GASB is the successor organization to the National Council on Governmental Accounting (NCGA).

General Fund

The fund used to finance the ordinary operations of the local education agency. It is available for any legally authorized purpose and consists of all school money not specifically designated for some particular purpose.

Grants

Contributions or gifts of cash or other assets from another government to be used or expended for a special purpose, activity, or facility.

Non-Discretionary

Funds appropriated and expended to pay for utilities and/or utility type expenditures. Common descriptions associated with these types of expenditures are, heat, light, and electric. Other types of expenditures may be controlled at this level such as the fuel for the school buses.

GLOSSARY

Note: Controlled and administered centrally.* Schools or departments are not responsible for over expenditures, nor are they allowed to utilize under expenditures in this category within the General Fund. Budgetary control is maintained by controlling the budget assigned to these areas and then monitoring expenditures at the District level.

Object

As used in expenditure classification, this term applies to the article purchased or the service obtained.

Operating Budget

The authorized revenues and expenditures for on-going District services and is the primary means by which the District is controlled.

A retirement plan whereby persons leaving service in the educational system because of age, disability, or length of service receive payments. Payments may be made either in a lump sum or in the form of an annuity.

Pupil Enrollment

For any budget year, the number of pupils enrolled.

Pupil Funding

For a district for any budget year, pupil funding is derived by multiplying the pupil enrollment of the district for said budget year by the sum of three pupil funding components for the district setting category.

Purchased Services

Amount paid for services rendered by persons, organizations or other agencies for a service or product required to obtain the desired results. Examples are travel allowance, heating, lawn equipment repair, printing, equipment rental, etc.

Reserve

An account which records a portion of the fund balance which is designated for some future use and which is, therefore, not available for further appropriation or expenditure. A Reserve for Inventories equal in amount to the Inventory of Supplies on the balance sheet of a General Fund is an example of such a reserve.

Restricted

Funds appropriated to ensure strict compliance with governmental accounting requirements. Examples of such funds are inter-fund transfer budgets and fund balance budgets.

Note: Controlled and administered centrally. *Only the accounting department is allowed to conduct business against these accounts and funds. Charges against these funds are made in strict compliance with governmental accounting requirements.

Retirement Fund System

A plan whereby a fund of money, built up through contributions from participations and other sources, is used to make regular payments to those who retire from service in the educational system by reason of age, disability, or length of service.

Revenue

Increase in governmental fund type net current assets from other than expenditure refunds and fund balance transfers.

Salaries

Funds appropriated and expended to pay the actual salaries of employees charged to a specific school or department.

Note: Controlled and administered centrally. *Schools or departments are not responsible for over expenditures, nor are they allowed to utilize under expenditures in this category within the General

GLOSSARY

Fund. Budgetary control is maintained by controlling the number of staffing units a school or department is authorized to have and then ensuring that they remain within authorization.
